

# WheelTag and Holder Fitting Instructions

## Step 1

- REMOVE THE BACKING TAPE on black Holder.
- Position black Holder on FRONT LEFT FORK, 4 fingers below top of spokes.
- Pull cable ties TIGHT. Ensure Holder remains flush to fork.

**⚠ Note:** *If you are in a team event all members must have a Holder on their bike.*

## Step 2

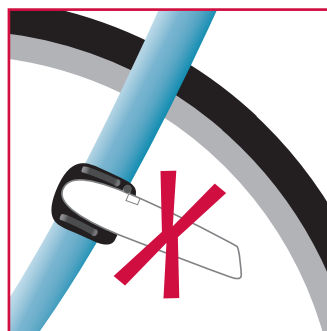

- Slide WheelTag into Holder until it clicks.
- Give WheelTag a gentle tug to ensure it is secure.
- To remove WheelTag, press release button and slide it out.

## Checklist

### WheelTag correctly attached

- ✓ Black Holder secure
- ✓ WheelTag secure
- ✓ On front left fork
- ✓ Placed 4 fingers below top of spokes
