

# WheelTag must be correctly attached

## Step 1

- Remove tape backing on the back of black holder.
- Position black holder 4 fingers below rim on **FRONT LEFT FORK**.
- Pull cable ties **TIGHT**. Ensure holder remains flush to fork.
- If you are in a team event **ALL MEMBERS** must have a holder on their bike.

## Step 2

- Slide **WheelTag** into holder until it clicks.
- Give **WheelTag** a gentle tug to ensure it is secure.
- To remove **WheelTag**, press release button and slide tag out.

## Check List

### WheelTag correctly attached

- ✓ Black holder secure.
- ✓ **WheelTag** secure.
- ✓ On left front fork.
- ✓ Placed 4 fingers below wheel rim.

Please return your WheelTag after you finish. Have an enjoyable event.
